To all association members,

In an effort to inform and to involve every member of the Hidden Lake Association of any pertinent news regarding the “doings” on the lake, we are asking each member their preference of the manner in which they would like to be contacted. This will also allow me the ability to inform everyone as to what Board is presently working on.

Secondly, we are initiating a boat registration program. Every association member will be assigned, a permit sticker for each boat that is used on Hidden Lake. These stickers are numbered and each sticker will have a member’s name and contact information registered to them. This will allow us to monitor what boats are owned by members. The other benefit will be, to identify the ownership of boats stored on the beaches. Please keep in mind, every member is still allowed to have a guest bring their boat to our lake however, all we ask is that the boat be clean of any foreign debris prior to entering the water.

Thank you for your cooperation,

Jay Cassella / President
